

## **Erratum**

**Hilgen, F., Lourens, L., Pälike, H. and research support team, 2020. Should Unit-Stratotypes and Astrochronozones be formally defined? A dual proposal (including postscriptum). Newsletters on Stratigraphy 53(1): 19–39. DOI: 10.1127/nos/2019/0514**

The formal proposal in favour of introducing unit-stratotypes and astrochronozones in global chronostratigraphy, including the outcome of the voting, was published in Newsletters on Stratigraphy in 2020 with three main authors and a research support team of scientists that strongly endorsed the proposal. Unfortunately, the name of one of the co-authors was inadvertently not included in the list of the support team:

Diederik Liebrand. MARUM – Center for Marine Environmental Science, University of Bremen, Bremen, Germany.
